## **LABORATORY MANAGEMENT SYSTEM BASED ON ISO 17025:2017 (NEW VERSION) (REGISTRATION IS OPEN NOW)**

### ► **About this Training:**

This course is presented in collaboration with Tti Testing Laboratories & QMS. This course is designed to provide in-depth knowledge with hands on exercise/ workshops to the participants. Our collective workshops/ Group Exercises provide opportunity to participants to learn and share experiences with other professional from various sectors Primary objective is to facilitate participants to differentiate NEW requirements and understand in its true perspective.

One of the salient features of this training is that it covers management and technical requirements based on our experience of working with various Labs across Pakistan

### ► **NOTE:** *Special attention on technical requirements*

### ► **Key Contents:**

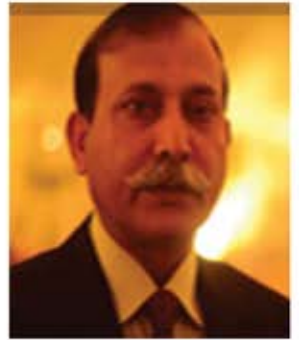

- Lab accreditation process
- Some Commons Issues in Labs
- ISO 17025 :2017 requirements covering all clauses
- What is new in the standard?
- Risk based approach
- Estimation of Uncertainty
- Equipment Management
- Testing Policies & Procedures
- Complaint Handling
- Sampling Methodology
- Proficiency Testing / Inter Lab Comparison
- Method Validation
- Management & Technical System Documentation
- System of Identification & Traceability
- Reporting of Test Results

### ► **What is NEW in 2017 version?**

- The scope has been revised to cover testing , calibration and sampling associated with subsequent calibration and testing.
- The process approach now matches that of newer standards such as ISO 9001 (Quality Management), ISO 15189 (Quality of Medical Laboratories).
- The standard has now a stronger focus on information technologies and incorporates the use of computer systems, electronic records and the production of electronic results and reports.
